INFORMATION

Custom Process and Pricing Basics

APPROACH

At its heart, Seamless Paperie believes in telling stories. Whether it's a tale of how a couple met, or how a charitable organization came to be, your event deserves a brand uniquely its own. Throughout the process, we'll work closely together to create a look and feel to define your unique event experience.

SERVICES

Each item is designed with meticulous attention to detail and the big picture in mind. The possibilities of what we can create are really endless. To get you thinking, here is a list—by no means exhaustive—of some of the various items we can help you create:

Print: Save the Dates / Invitations / Programs / Menus / Maps / Escort Cards

Online: Wedding Website / HTML email correspondence

Miscellaneous: Guest Welcome Kits / Favors / Decor Details

PROCESS

- 1. Consultation:** We will begin with a consultation to discuss all of your event details and design needs. This can be done over email, by phone, or in person if you are in the New York City area. Send us an email to set up an appointment.
- 2. Contract:** Once we have a clear vision of the direction for your project, we'll put together an estimate and contract that outlines the details. Upon your approval, we'll ask for a non-refundable 25% deposit to begin designing.
- 3. Design:** After receiving your deposit we will begin the design process by showing you two to three options (outlined in your contract). After the first round, you'll choose a direction; and we'll continue through a revision process until we reach a final product that you love. (Three rounds of revisions are automatically included in your contract price. Additional revisions will incur an extra charge.)

PROCESS (cont.)

4. Production: Once your design is approved, we will begin the production process, by preparing the files to send to one of our trusted vendors. Unless otherwise discussed, Seamless will put together and collate all of your pieces—save for postage and envelope sealing—and ship to you via UPS. A final bill will be delivered at this time.

TIMING

Timing will vary depending on the production details involved in each of your project components. To start, we like to work backwards from your event date. We'll let you know what options you have within that timeframe, and if timing is tight we will provide a project schedule to work from. For weddings, we like to start working together approximately six months before your wedding date.

PRICING

Since your wedding or event paper goods will be completely unique, it is difficult to provide specific pricing. We will work together throughout the process to make sure that we are balancing the details that you really want with the budget you need to stick with. As a general guideline, a custom invitation suite of 100 invitations, reply cards and their respective envelopes would start at \$2,500.00.
